COACHING TALLY SHEET

Film about ten minutes of one activity, with sound. Watch it back once and make a mark each time one of these happens. The tally shows your patterns. Whether they're the right patterns for your players is your call.

ONE THING TO CHANGE NEXT TIME

Counts aren't quality: a well-timed instruction can be exactly right. For a rough reference point, not a target, 19 Australian coaches of U12–U16 players asked a little under one question a minute, about half closed and half open (O'Connor et al., 2021). More at usepitchlabs.com/learn.
